Orders have been issued for mustering out the balance of the 9th Army Corps.

The regular cavalry brigade which has done such efficient service during the war, will probably soon be filled up to its maximum strength. The regiments are at present very much reattered. The first regiment is in Texas with Sheridan: part of it acting as his body-guard. The second is at Winchester, Va. The third at Little Rock, Ark. The fourth with Gen. Wilson, in Tennessee. The fifth is at Cumberland, Md., and the sixth at Frederick, Md.

Policy of the Government on the Mexican question.

Naw Yonk, July 12.—The World's Washington special says some yery important statements were made in the semi-official papers to-day, with regard to the policy of the government on the such a shape that it cannot well be described, and is to the effect.

First.—That the government will not permit another French, Austrian or foreign soldier of any sort, in the service of Maximilian, to be landed on the Mexican coast, without entering a firm and decided protest.

Second—And what is of the greatest importance, that the government having great among the appointments and reappointments of Postmasters which have just been made: Alexander Sharp, Richmond, Va.: Preseotit Wirber. represented. The chairman of such delegation shall determine the manner in which the remaining vote of each State will be given. The Chicago delegation expressed satisfaction with the arrangement and withdrew their protest. Had not this arrangement been effected, Buffalo would have gone with Chicago, and the convention would have been an abortion. Messrs, M. C. Chesney and Scammon, of Chicago, Pruyn, of Albany; Sayton, of Missouri, Hill, of Boston; H. P. Badge, of Detroit; and Herman Prentice, of Maine, were elected to represent the Convention.

Washington, July 12.—The following are among the appointments and reappointments of Postmasters which have just been made: Alexander Sharp, Richmond, Va.; Prescott Wright, Springfield, Ill.; Allen Richards, Jefferson City, Mos.; G. The Chronicle has a prominent paragraph in answer to those who have declared that Secretary Stanton intends to leave as soon as the President can find a successor, saying Mr. Stanton is very well and hearty, and is attentive to his official duties; nor has be concluded to resign, an event which he does not contemplate nor the President desire.

Secretary Harlan has sigmed a contract with the Architectural Lean Contract with the Architectu

Second—And what is of the greatest importance, that the government having stationed in Texas an army of one hundred thousand men, will keep it there to act as a corps of observation, and to exercise such a physico-moral pressure as shall ultimately compel Maximilian from Mexico. This army has been so disposed that it overshadows, especially on the Rio Grande, the Mexican frontier, and keeps the foreign levies of the Emperor in an incessant state of apprehension and activity. If the worst should come, the United States would have at hand a force sufficient to maintain its dignity and make reprisals. The transfer of a robel battery to the Imperialist General Mejia, is another matter now occupying official attention, and a full and searching investigation is to be made in the matter of the alleged sale.
